Hello Ms. Barajas-Ochoa,

I am asking that you vote for making the safe level of glyphosate = ZERO.

I am extremely concerned about the carcinogenicity of glyphosate and how it breaks down the gut and brain barriers. I believe our health hinges on our strong gut health and glyphosate only degrades and destroys it.

Chemical companies, of course, will tell you their product is safe. But tobacco companies told us that smoking was safe.
We are wiser.

Thank you for your consideration.
